May 24th, 2020 - a guide to neophema and neopsephotus genera and their mutations soft
cover dr alain campagne has been keeping birds since the 1970s and since 2000 has been

seriously involved in the breeding of neophema and neopsephotus species he is one of

the growing number of modern aviculturists who have embraced the internet '
'a guide to neophema and neopsephotus general and their
May 21st, 2020 - it is no longer possible to take wild
birds out of their environment for this reason it is our
duty to strive to perpetuate those species bred in
captivity apart from the satisfaction derived from
cultivating mutations breeders also have a responsibility
to preserve original species of pure mutation free wild
phenotypes'

'neophema

June 3rd, 2020 - the genus neophema is an Australian genus with six or seven species they are small basically dull green parrots differentiated by patches of other colours and are mostly known as grass parrots the genus has some sexual dichromatism with males having brighter hues'
